

Digital Library

Product descriptions

Resource	Description
 <p>CAB Abstracts</p>	<p>The most comprehensive database of its kind, CAB Abstracts gives instant access to over 11 million research records across agriculture, the environment, and applied life sciences. It is one of the most trusted databases in the applied life sciences by researchers, librarians, faculties, students, and practitioners alike.</p> <p>www.cabdigitallibrary.org/product/ca</p>
 <p>Global Health</p>	<p>Global Health is the leading specialist database giving instant access to over 4 million research records dedicated to national, regional, and international public health. It is one of the most trusted databases in public health research and medical practice by researchers, librarians, faculties, students, and practitioners alike.</p> <p>www.cabdigitallibrary.org/product/he</p>
 <p>Animal Science Collection</p>	<p>CABI's Animal Science Collection is a database of research summaries, news articles and full-text records for companion, zoo, laboratory and economically important farmed animals and fish. It covers all aspects of animal science to support your study and research in animal nutrition, breeding and genetics, behaviour and welfare as well as health and husbandry.</p> <p>www.cabdigitallibrary.org/product/za</p>
 <p>Environmental Impact Collection</p>	<p>CABI's Environmental Impact Collection is a database of bibliographic and full text information covering climate change and pollution, biodiversity and other influences of humans on the biosphere. Created in response to demand from the scientific community, policy makers and information specialists.</p> <p>www.cabdigitallibrary.org/product/zg</p>

Resource	Description
 <p>Forest Science Collection</p>	<p>CABI's Forest Science Collection is a database of bibliographic information, full text records and abstracts for all aspects of agroforestry, forestry, tree biology, land use and wood science as well as climate change effects, deforestation, forest logging and urban forestry.</p> <p>www.cabidigitallibrary.org/product/kg</p>
 <p>Leisure Tourism Collection</p>	<p>CABI's Leisure Tourism Collection is a database of full text records, book chapters, news, bibliographic information and abstracts for all aspects of leisure and tourism. The collection covers tourism policy and planning, education and training, travel, sports, hospitality, the arts and entertainment, sustainability, recreational activities and cultural heritage.</p> <p>www.cabidigitallibrary.org/product/3r</p>
 <p>Nutrition and Food Science Collection</p>	<p>CABI's Nutrition and Food Science Collection is a database of full text, abstracts and research summaries covering human nutrition, food science and technology, as well as education around nutrition and food economics. It provides a comprehensive view of food science and nutrition; from the safe production of food, to food policy and marketing, and the interactions between diet and health.</p> <p>www.cabidigitallibrary.org/product/zd</p>
 <p>VetMed Resource</p>	<p>CABI's VetMed Resource Collection is a comprehensive database of bibliographic information, research articles and full text records for veterinary professionals. Covering livestock and working animals, companion animals, exotic, zoo and wild animals as well as fish and aquatic species, the VetMed Resource Collection is the tool of choice when it comes to keeping up-to-date on developments in veterinary science, and for basing practice on the best available evidence.</p> <p>www.cabidigitallibrary.org/product/ve</p>
 <p>Global Agricultural Research Archive (GARA)</p>	<p>GARA has been set up to digitally capture agricultural knowledge on behalf of developing countries around the world. This resource provides a valuable repository of scientific and practical agricultural information. Helping to support researchers and agricultural extension advisors with the knowledge and practical application to overcome agricultural challenges in developing regions.</p> <p>www.cabidigitallibrary.org/product/rr</p>
 <p>CABI Scientific Outputs</p>	<p>CABI's team of scientists, based in our global network of centres, deliver a variety of projects and programmes which support CABI's mission to improve peoples' lives worldwide. Our scientists do this by researching and applying expertise to solve problems in agriculture and the environment.</p> <p>www.cabidigitallibrary.org/product/cb</p>
